

Relaxation Made Beautiful

Fjords Monte Carlo

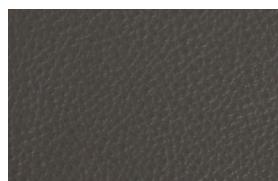

The Fjords Monte Carlo is as relaxing as it is beautiful. It features the design, tailoring and commitment to detail that you have come to expect from Fjords furniture. The sofa is constructed as a modular system. Each seat has the option of power or stationary. The power seats offer two motors, one to operate the concealed footrest and backrest and the other to operate the headrest cushion for additional comfort. Controls for the two operations are located on the seat. For those who do not want power, a stationary module which features a manually adjustable headrest is available. There is no option for a manual footrest on the stationary model.
